XP30P

Paging Machine

This image only supplies the reference,
please take the actual product as the standard.

The XP30P is an application equipment that integrates pagination and identification, which can be customized with multi-functional detachable pagination head, with low paging noise, and can be compatible with a variety of products such as bags and boxes. The XP30P is embedded with the self-developed T260E thermal inkjet printer, with an ergonomic tilting operation panel and a large 7-inch color screen, making the operation more convenient. It is equipped with a stable and adjustable speed conveyor belt, which makes the pagination efficient without mistakes, rich content editing and clear printing.

Technical Parameters

1. Power supply: AC220V-50/60Hz	2. Motor power: 60W
3. Dimensions: 680*460*400mm	4. Width of the applicable product: 80-250mm
5. Paging speed: 5-30m/min	6. Paging thickness: 0.05-5mm
7. Paging length: 50-300mm	8. Conveyor belt limited length: 390mm
9. Weight: 25KG (without receiving hopper)	10. Equipment Material: Stainless Steel (Brushed Matte Finish)
